

Would you like a custom designed SDA home funded for you?

Illowra Projects provide person centric custom designed homes.

Everyone's needs are different and we believe that a home should be specifically designed to meet individual needs to increase independence. In collaboration with the Synergis Fund we are building new custom designed SDA housing for eligible NDIS participants. The Synergis Fund is a new social investment fund established to fund disability housing.

Our person centric customised design means:

- Starting by understanding your needs.
- Respecting your preference to live alone or to share with others.
- Locating a home in an area that suits you.
- If sharing, configuring the layout to meet everyone's needs.
- Incorporating design features that both meet the NDIS SDA Design Standard and also your specific needs to increase independence.

Illowra Projects is targeting 50 new housing projects delivering homes to 200 NDIS participants over the next three years. Synergis Fund is supporting Illowra Projects achieve this target.
